Produce and securely collaborate on transcripts of interviews and legal proceedings.

Reliably capture interview, hearing room, and meeting dialogue using expert recording and transcription services.

Accelerate collaboration with the use of human and technology-assisted solutions to transcribe verbatim records with speaker identification and timestamping.

Access and share searchable and organised transcripts, supported by review editors, translations, and document presentation.

Drive cost-effectiveness with flexibly priced operating models, from live requirements for meetings and interviews to reviewed documents of record for trials and hearings.

Key Features

- Create a formal record of events for compliant storage and easy retrieval.
- Leverage experienced hearing room stenographers and transcribers who deliver at 98% accuracy.
- Optimise case communication with timely transcripts shared with the legal team and stakeholders for collaboration and annotations.
- Expedite investigative discussions and meeting communications, such as sensitive HR-led meetings, with live transcription services.
- Drive cost-effectiveness with flexible solutions suited to the size and complexity of the event, billed via a single provider.
- Easily identify speakers and annotate with insights to aid counsel and the legal team with case delivery and record of event documentation.
- Comply with brand and publishing guidelines with various template styles or customised to your publishing standards.
- Improve inclusion and engagement with expert translation and review services.

The thumbnail shows the Epiq Transcription Services brochure. It features the Epiq logo and the title 'Transcription Services'. The main headline is 'Produce and securely collaborate on transcripts of interviews and legal proceedings.' Below this, there is a list of benefits: 'Reliably capture interviews, hearing room, and meeting dialogue using expert recording and transcription services.', 'Accelerate collaboration with the use of human and technology-assisted solutions to transcribe verbatim records with speaker identification and timestamps.', 'Create a formal record of events for compliant storage and easy retrieval.', 'Leverage experienced hearing room scribes and transcribers.', 'Enhance case communication with timely transcripts shared for collaboration and annotations.', 'Expedite investigative discussions and meeting communications with live transcription services.', 'Drive cost effectiveness with flexible solutions suited to the size and complexity of the event, billed through a single provider.', 'Easily identify speakers and annotate with insights to aid counsel and the legal team.', 'Comply with various brand and publishing standard styles or customise them.' To the right of the list is a section titled 'Why Epiq Legal Solutions?' with the text 'Experience the advantage of solutions from a partner specializing in legal and compliance.' Below the list are three statistics: 'Experienced transcribers deliver 98% accuracy', '70+ global transcription contracts', and '500+ courts per day utilise Epiq transcription services'. At the bottom left is the website 'epiqglobal.com' and at the bottom right is a QR code.
